

# TSA's Travel Tips

## Before you go...

- Visit [www.tsa.gov](http://www.tsa.gov) for all the latest security policies.
- Pack liquids/gels/aerosols in your checked baggage. For a short trip you are permitted to carry-on 1 quart-size, clear plastic, zip-top bag holding 3 ounces or less containers of liquids, gels or aerosols. Limited to one bag per traveler.
- Exceptions include: baby formula/breast milk/baby food while traveling with a small child, medications, liquids (to include water, juice or liquid nutrients) or gels for diabetics or other medical needs. All exceptions must be declared to the Security Officer for screening.
- All footwear must be removed for X-ray screening. Wearing footwear that can be easily removed helps.
- Pack valuables such as jewelry, cash and electronics, as well as fragile items, in your carry-on. This will speed the screening process.
- Avoid wearing accessories that contain metal, which will set off the metal detector.
- Put all undeveloped film in your carry-on bag, because checked baggage screening equipment may damage film.

- If carrying a firearm, please check with your airline for appropriate procedures.
- Leave lighters at home. TSA collects thousands of lighters a day.

## When you arrive...

- Take your quart-size plastic zip-top bag out of your carry-on and place separately in bin.
- Declare all permitted liquid exceptions to the Security Officer in front of the checkpoint.
- Take your laptop and video cameras with cassettes out of their cases for screening.
- Remove your outer coat, suit coat, jacket or blazer to place in bin for X-ray.
- Place the following items in your carry-on before entering the screening checkpoint: cell phones and personal data assistants, keys, loose change, jewelry and large metal items.

For questions visit [www.tsa.gov](http://www.tsa.gov) or TSA Contact Center toll-free at (866) 289-9673

Transportation Security Administration [www.tsa.gov](http://www.tsa.gov)

3 ounces or less size containers of liquids, gels or aerosols.

Container size is a security measure.

1 quart-size, clear plastic, zip-top bag holding 3 ounces or less containers.

Bag limits total volume per person.

1 bag per traveler placed in the security bin.

Isolating liquids speeds screening.
